*This course must be taken concurrently with a corequisite course from the Agriculture, Food, and Natural Resources Career Cluster and may not be taken as a stand-alone course. Districts are encouraged to offer this lab in a consecutive block with the corequisite course to allow students sufficient time to master the content of both courses. Corequisite: any course in the Agriculture, Food, and Natural Resources Career Cluster, excluding Principles of Agriculture, Food, and Natural Resources; Practicum in Agriculture, Food, and Natural Resources; and any 1/2 credit Agriculture, Food, and Natural Resources course.

Example: Agricultural Power Systems (2 credits) + Agricultural Laboratory and Field Experience (1 credit) = 3 credits.

**This course must be taken concurrently with Practicum in Agriculture, Food, and Natural Resources and may not be taken as a stand-alone course.

Example: Practicum in Agriculture, Food, and Natural Resources (2 credits) + Extended Practicum in Agriculture, Food, and Natural Resources (1 credit) = 3 credits

Note: A student may repeat a practicum course or practicum course + extended practicum course once for credit provided that the student is experiencing different aspects of the industry and demonstrating proficiency in additional and more advanced knowledge and skills.

<p>*This course must be taken concurrently with a corequisite course and may not be taken as a stand-alone course. Districts are encouraged to offer this lab in a consecutive block with the corequisite course to allow students sufficient time to master the content of both courses. Corequisites: Automotive Technology II: Automotive Services; Diesel Equipment Technology II; Collision Repair, Paint and Refinishing; Aircraft Airframe Technology; or Aircraft Powerplant Technology. Example: Automotive Technology II: Automotive Services (2 credits) + Advanced Transportation Systems Laboratory (1 credit) = 3 credits</p>				
<p>**This course must be taken concurrently with the related practicum course and may not be taken as a stand-alone course. Example: Practicum in Transportation Systems (2 credits) + Extended Practicum in Transportation Systems (1 credit) = 3 credits</p>				
<p>Note: A student may repeat a practicum course or practicum course + extended practicum course once for credit provided that the student is experiencing different aspects of the industry and demonstrating proficiency in additional and more advanced knowledge and skills.</p>
