Who takes STAAR Alternate 2?

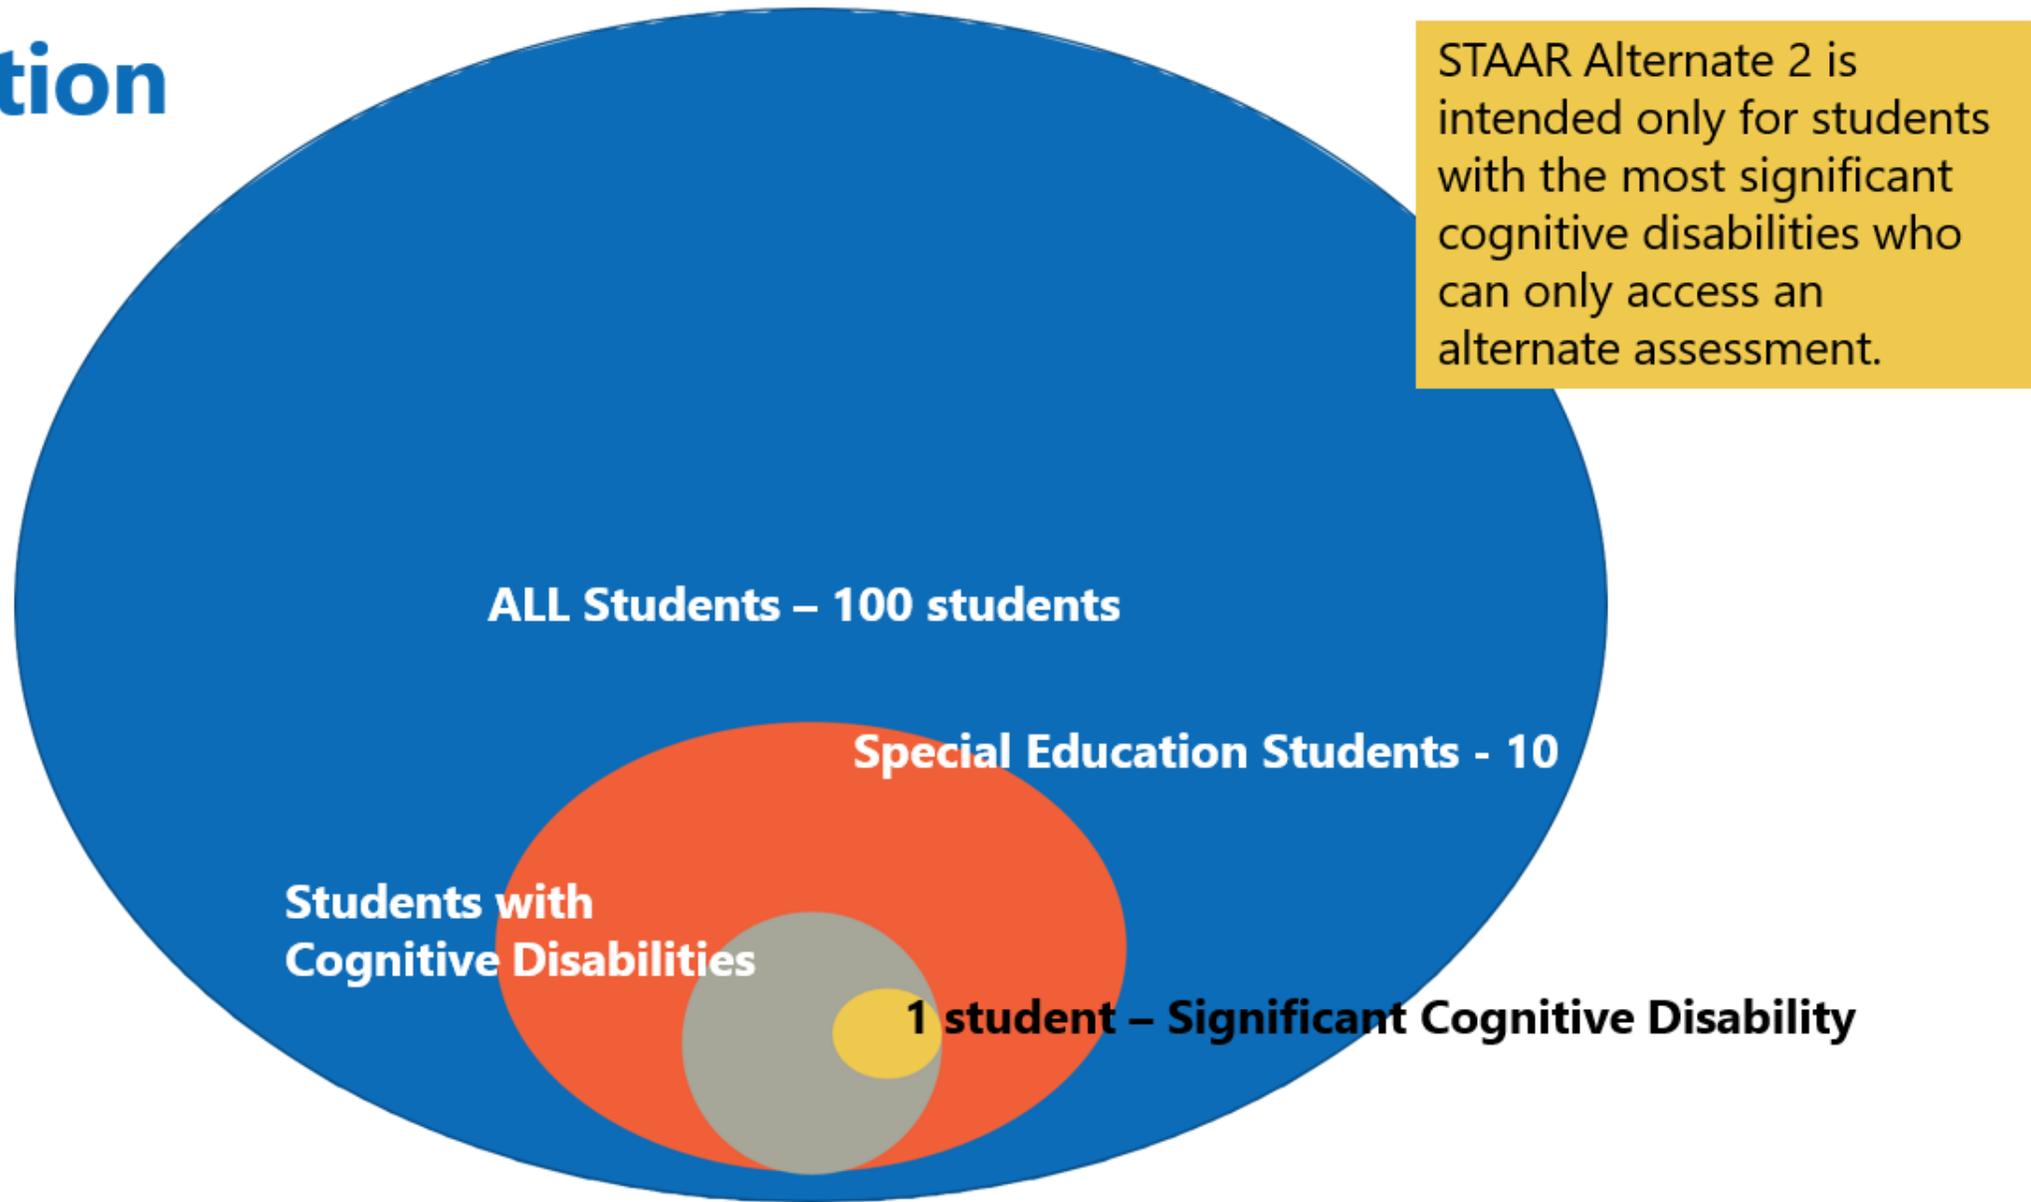

A student with a significant cognitive disability

- exhibits significant intellectual and adaptive behavior deficits in their ability to plan, comprehend, and reason, and ALSO indicates adaptive behavior deficits that limit their ability to apply social and practical skills such as personal care, social problem-solving skills, dressing, eating, using money, and other functional skills across life domains;
- is NOT identified based on English learner designation or solely based on previous low academic achievement or the need for accommodations; and
- requires extensive, direct, individualized instruction, as well as a need for substantial supports that are neither temporary nor specific to a particular content area.

This is our TEA definition!

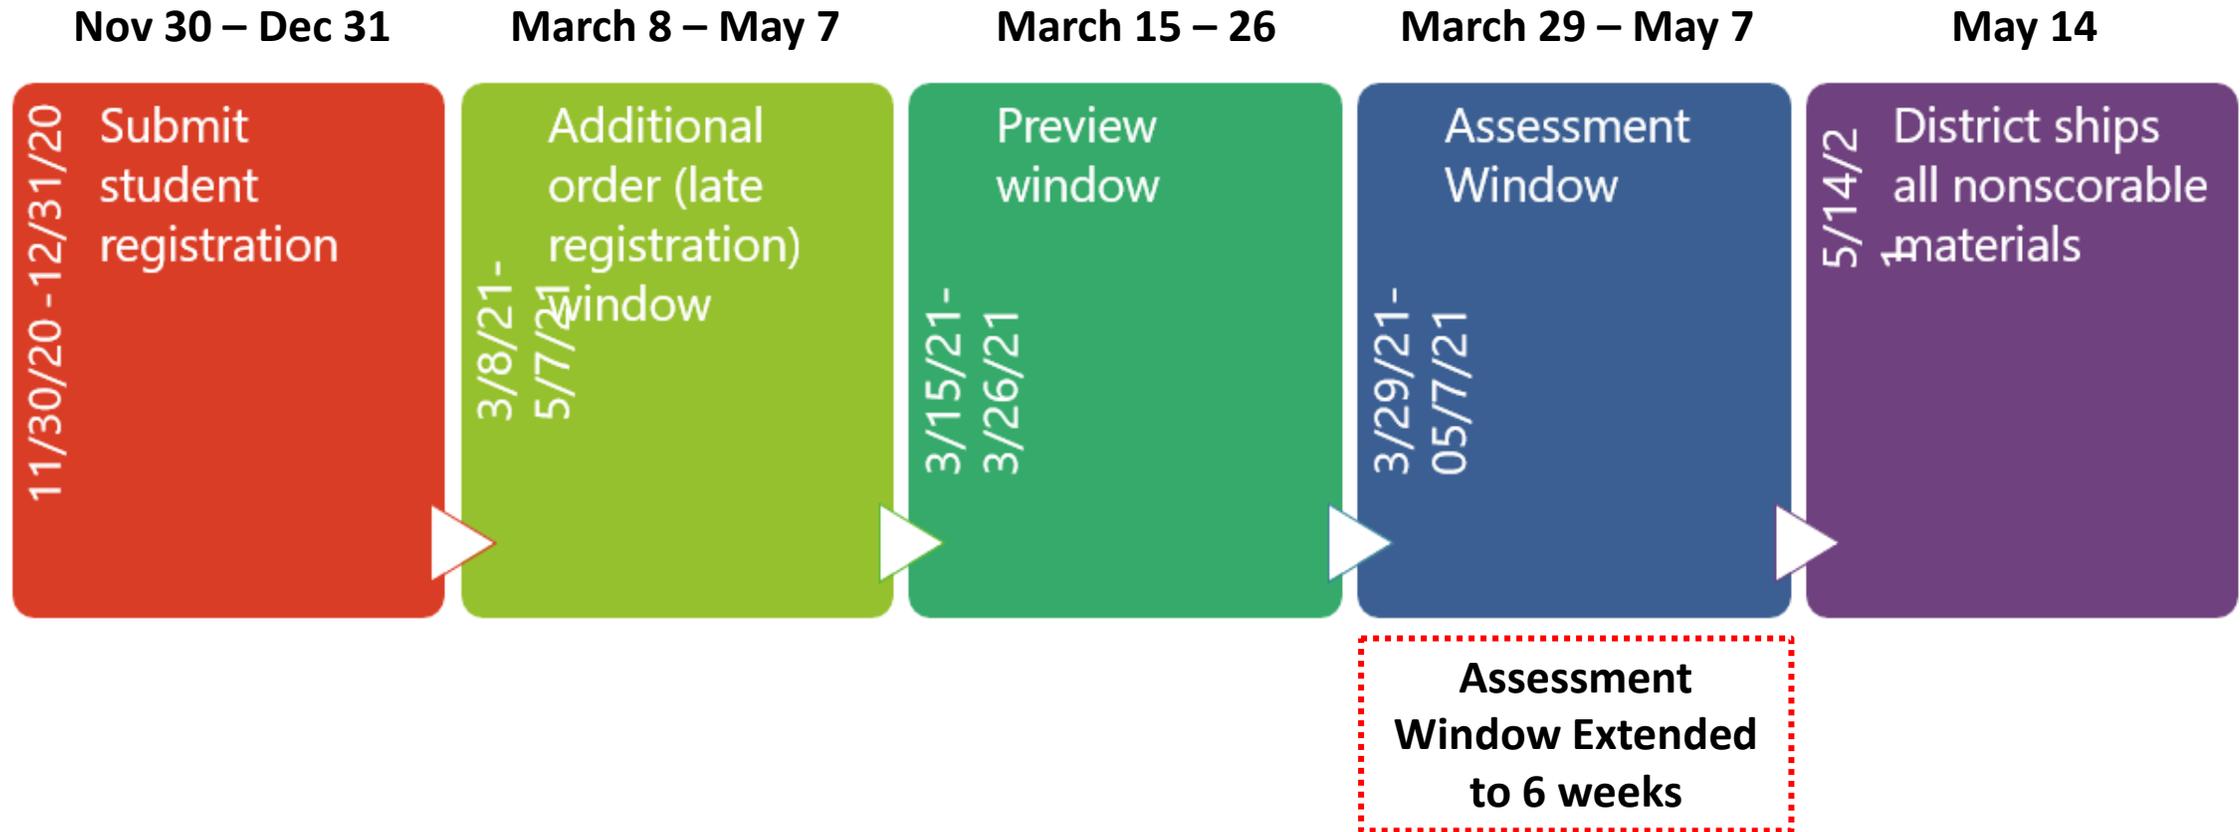

Participation Rates

Evidence must be provided to support the reason for an alternate assessment

- The student has a significant cognitive disability according to the Texas definition.
- The student requires specialized, extensive supports to access grade-level curriculum and the student's environment.
- The student requires intensive, individualized instruction in all instructional settings.
- The student accesses and participates in grade-level TEKS through pre-requisite skills.
- The student's eligibility is NOT based on the student's racial or economic background, English learner status, excessive or extended absences, location of service delivery, anticipated disruptive behavior or emotional distress, or any other such factors.

STAAR Alternate 2 Key Dates 2020-2021

STAAR Alternate 2 Preview Window

- Preview Window, March 15 – March 26
- Testing Window, March 29 – May 7
- Because testing window has been extended from three weeks to six weeks, there will be no approvals for extended preview window for Spring 2021.
- Test administrators can preview materials and prepare accommodations during the testing window up until the day for testing to begin.

Important Registration Information

Students who enroll on or after March 29, 2021

A student who transfers/moves to a **NEW** district on or after the first day of the STAAR Alternate 2 testing window

- is not required to be tested.
- The new district should register the student and mark the tests with an "O" score code.

A student who transfers/moves within the **SAME** district on or after the first day of testing window

- must be tested.

- All grades/subjects except for Writing 4 & 7 will have 28 test items versus previous year's 24 test items.
- Scoring Document
 - Only 24 of the spaces are needed for Writing 4 & 7
 - When scoring Gr. 4 & 7 Writing tests, cross out the numbers 25, 26, 27, 28 on the scoring document.

The STAAR Alternate 2 Scoring Document can also be found at <https://tx.mypearsonsupport.com/>

Students Requiring Frequent Breaks

- Is it possible to pause testing in the middle of a four-item cluster?
- Four-item clusters in STAAR Alternate 2 build context from item 1-4. It is allowable to pause for a student break amidst the administration of the four item cluster, but best practice is to try and test through all four items and then allow a student break.

Other Required Personnel in the Testing Room

- Some students who are assessed with STAAR Alternate 2 require assistance from personnel other than the classroom teacher such as personal nurses, related service personnel, etc. Can other individuals be in the classroom during testing?
- Test confidentiality must be observed and other students must be prevented from hearing or seeing test items prior to testing.
- Other school or private paid personnel who will have access to secure test material must have completed security training and signed the confidentiality oath.

One Student Booklet for Multiple Students

- Can test administrators use one student booklet for multiple students? Image cards?
- If the student booklet remains a "clean" booklet with absolutely no marks or accommodations applied, it may be used for multiple students. Same is true for image cards.

Cameras In The Classroom

- Can a test administrator administer STAAR Alternate 2 in a classroom that has cameras running?

- The current rule does not allow the student to be removed from the camera sight in lieu of test administration.
- *§103.1301. Video Surveillance of Certain Special Education Settings*

Grades 3-8 Retesting

- Is a student in grades 3, 4, 5, 6, 7, or 8 required to take STAAR Alternate 2 again if they are repeating a grade and have already been tested at that grade level?
- Yes, students in grades 3-8 must be tested at the enrolled grade level as required in Texas Education Code (TEC) §39.023(a), even if they have tested in the same grade level in the prior year.

Waived EOC Assessments for Spring 2020

- Does EOC assessment guidance apply to students who take STAAR Alternate 2?
 - The required performance on academic assessments under TEC, §28.025(c) and §39.025(a) was waived for spring 2020.
 - For all students receiving special education services, the admission, review, and dismissal committee will continue to make educational decisions, including graduation decisions and decisions related to required performance on academic assessments. For all students who were scheduled to be administered a STAAR Alternate 2 EOC assessment in spring 2020, the assessment requirement is being waived. These students are not required to take the specific STAAR Alternate 2 EOC assessment in the future and are not responsible for passing the assessment to fulfill graduation requirements.

2019 ESSA 1% Waiver

- TEA's 2019 request to extend our waiver to assess more than 1% of students was not approved.
- U.S.D.E. cited that Texas continues to assess more than 1% of our assessed students on an alternate assessment.
- U.S.D.E. commented that Texas must provide evidence that we are addressing the disproportionality in the percentage of students taking the alternate assessment.
- TEA will request a new waiver for the 2020-2021 school year.

2020 ESSA 1% Waiver

- More guidance to come from U.S.D.E.
- Assurance information may be collected this fall from districts over 1% according to 2018 participation data.
- More information during December 2020 (To Be Announced)

Technical Assistance from ESCs

- Regional Testing Coordinators were given district data for districts
 - that had increased STAAR Alternate 2 participation rates for two years in a row and had a student enrollment over 200.
 - that had unusual data like GT students participating in STAAR Alternate 2 or students with disability code of Specific Learning Disability participating in STAAR Alternate 2
- Region Testing Coordinators and team were asked to complete a technical assistance report
 - explaining the technical assistance already provided to targeted districts
 - explaining technical assistance that is planned to targeted districts

Technical Assistance Reports

- Technical Assistance reports will be used to complete the 2020 waiver to U.S.D.E. to show what we are doing in Texas to make sure only students with significant cognitive disabilities are participating in an alternate assessment.
- Technical Assistance to districts will result in lowered participation rates in the STAAR Alternate 2 assessment.

TEA Division of Review and Support

- Monitoring language matches ESSA 1% language
- Monitoring same subjects as ESSA requires

Use of Designated Supports

- STAAR Test Administrator Modules
 - Test Administrators well trained on the use of accommodations and designated supports will be able to make better informed assessment decisions.
 - STAAR Accessibility Features
 - Designated Supports – ESC Testing Coordinator Training
 - Examples where knowledge of STAAR accommodations are critical
 - students with physical disabilities that require transcription,
 - students with behavior disorder who require specialized supports,
 - students who are blind who require braille materials.
 - Coming Soon: STAAR Test Administrator modules – Accommodations
