

Commissioner of Education Final Decisions for the 2014 State Accountability Rating System

The first two columns of the following table summarize the recommendations made by the Accountability Technical Advisory Committee (ATAC) and the Accountability Policy Advisory Committee (APAC), respectively, to the commissioner during the 2013-14 accountability development process. The third column provides the commissioner’s final decisions for the 2014 state accountability rating system with accompanying comments/rationales in the last column, where applicable. The final decisions listed in table below and additional detailed information on the 2014 rating system will be available in selected chapters of the *2014 Accountability Manual* that will be released in late May 2014.

ATAC Recommendation	APAC Recommendation	Commissioner’s Final Decisions	Comments/Rationale
<p>2014 Ratings Criteria To receive a <i>Met Standard</i> or <i>Met Alternative Standard</i> rating, all campuses and districts must meet all four performance index targets.</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	
<p>2014 Accountability Targets For Indexes 1, 2, and 3</p> <p>Index 1: Set an absolute target at a higher performance level than the prior year.</p> <p>Index 1 Target for Districts and Campuses: 55</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>The absolute target for Index 1 of 55 is based on 2013 model estimates which may over or under estimate actual performance in 2014. For example, the 2013 model estimates only include U.S History EOC results for a very small sample of students, not the full population that will be assessed in 2014.</p>
<p>Index 2: Set target at or about the fifth percentile based on actual 2014 performance in June 2014.</p> <p>Index 2 Target for Campuses: TBD (5th percentile by elementary and middle school campuses)</p> <p>Index 2 Target for Districts: TBD (5th percentile across all campuses)</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>Due to the inclusion of new progress measures for STAAR Modified, STAAR Alternate, and ELL progress it is not possible to determine the Index 2 outcomes in order to define the 2014 index targets.</p>
<p>Index 3: Set target at or about the fifth percentile based on actual 2014 performance in June 2014.</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>Index 3 calculations will include additional results for ELL students enrolled in their second and third</p>

Commissioner of Education Final Decisions for the 2014 State Accountability Rating System

ATAC Recommendation	APAC Recommendation	Commissioner’s Final Decisions	Comments/Rationale
<p>Index 3 Target for Campuses: TBD (5th percentile by elementary, middle, and high school/multi-grade campuses)</p> <p>Index 3 Target for Districts: TBD (5th percentile across all campuses)</p>			<p>years in U.S. schools through the use of the new ELL progress measure. Data are not available to accurately estimate the ELL progress measure outcomes, so it is not possible to determine the Index 3 outcomes in order to define the 2014 index targets.</p>
<p>Index 2 Evaluation for High Schools in 2014: Due to the limited number of assessments with a progress measure in 2014, Index 2 is not evaluated in the 2014 state accountability results for high schools/secondary campuses or campuses/charters registered for Alternative Education Accountability (AEA) provisions. Evaluation of these campuses on Index 2 would resume in 2015.</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>In 2014, progress measure results are only available for high schools for the following assessments:</p> <ul style="list-style-type: none"> • Mathematics - Algebra I (for students who did not take Algebra I in middle school) • Reading – STAAR Alternate for English I and English II
<p>2014 Index 3 Minimum Size Criteria: Change minimum size criteria for identifying the lowest performing racial/ethnic student group. The lowest performing student group(s) is selected if the Index 1 student achievement indicator for the prior year meets the minimum size of 25 tests taken in both the 2012-13 (prior year) reading and mathematics subject areas.</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>In 2013, minimum size criteria for identifying the lowest performing racial/ethnic group in the prior year were at least 25 test results across all subjects. This change will increase the likelihood that the student groups identified with the prior year data will be the same student groups used in the current year Index 3 evaluation.</p>
<p>2014 Index 4 Design/Construction Construct Index 4 to combine the numerical results of four components:</p>	<p>Agree with ATAC recommendation.</p>	<p>Agree with APAC and ATAC recommendation.</p>	<p>Additional postsecondary readiness indicators will be included in Index 4 in future years to meet statutory requirements for use of industry</p>

Commissioner of Education Final Decisions for the 2014 State Accountability Rating System

ATAC Recommendation	APAC Recommendation	Commissioner's Final Decisions	Comments/Rationale
<ul style="list-style-type: none"> - STAAR Final Level II Component - Graduation Rate Component - Graduation Plan Component - Postsecondary Component 			certification results and other non-assessment based measures of postsecondary success.
<p>Index 4 Component: STAAR Final Level II Define the component as the percent of students with STAAR test results at or above the final Level II performance standard on one or more STAAR tests.</p>	Use the percent of students with STAAR test results at or above the final Level II performance standard on the STAAR Reading /English language arts (ELA) and mathematics tests.	Use the percent of students with STAAR test results at or above the final Level II performance standard on two or more subject area tests.	STAAR performance at the final Level II passing standard based on two or more subjects is used for the following reasons: <ol style="list-style-type: none"> 1) includes writing, science, and social studies in the index evaluation which represent content areas where students also must pass in order to achieve a high school diploma; 2) gives high schools additional opportunities to meet the STAAR component, since a significant proportion of students do not take a mathematics assessment in high school; 3) recognizes students have academic strengths in certain subject areas but not all, and allows schools time to adjust existing programs to prepare all students for postsecondary success; and, 4) the postsecondary readiness component will focus on the reading/ELA and mathematics content areas.
<p>Index 4 Component: Postsecondary Readiness Indicator</p>	Define the indicator of College-Ready	Agree with APAC recommendation.	An indicator that requires college readiness standards to be met on

Commissioner of Education Final Decisions for the 2014 State Accountability Rating System
